THE STRATEGY

Every conversation from now to December is one move in the same sequence. Each party is sold on what the others bring, so each yes becomes the proof for the next conversation.

1. **Golfzon. Sell the bays to get the partnership.** A 272-bay programme in Virgin Active and Planet Fitness gets us in the room with Golfzon's global head. We leave with chain pricing, a reference design and an agreement to talk about Get Lucky mode inside Golfzon's software.
2. **Planet Fitness (and Virgin Active). Sell the concept.** Golf zones at zero capex, financed by RMB, run by Get Lucky, and backed by Ernie Els.
3. **RMB. Sell the finance.** Asset finance for the bays, backed by concessions with Virgin Active and Planet Fitness, Golfzon pricing, a Santam-insured shot and the bay model.
4. **Icons. Sell the R10 million hole-in-one** at Icons Cup South Africa, fully underwritten and at no cost to Icons. Get Lucky becomes the Official Hole-in-One Partner.
5. **Santam. Sell the global book.** An app backed by Ernie Els, running globally on Golfzon and launched on the Icons broadcast. First the SA foundation cover, then the R10m quote.
6. **Icons Cup, Fancourt, 11-13 December. Close.** Sign Ernie as founding partner there, and announce Get Lucky going global: the app, integrated with Golfzon, and Virgin Golf and Planet Golf bays from 2027.

THE PRINCIPLE

Nobody signs first on their own. Each party signs **subject to** the others: Golfzon pricing subject to the order, the gym deals subject to finance, RMB subject to the concessions. Then they all convert together. Sequence the *conditional* yeses fast, and the firm ones follow in one closing stack.

HOW EACH YES UNLOCKS THE NEXT

PARTY	WHAT WE SELL	WHAT WE ASK FOR NOW	PROOF WE BRING (FROM WHOM)	WHAT THEIR YES UNLOCKS
Golfzon (Sean Pyun)	A 272-bay gym-chain programme; the insured shot as a product for all Golfzon operators	Chain pricing, reference design, SA service partner; talks on Get Lucky mode, an NDA for data sharing	The gym programme (VA/PF), RMB structure, Santam cover, 30 courses, 600 golf days	Pricing for RMB; "Golfzon" as a credible name in the PF and VA rooms; the global software rail
Planet Fitness (Mannee de Wet, then Manny Rivera)	Golf zones at zero capex, 20% of every rand, R13.7m a year at maturity	A letter of intent (LOI) for phase 1, subject to finance and reference design; a Sandton flagship	Golfzon engaged (25 Sep), RMB structure, Chiswick numbers, the Icons/Ernie story	The first signed chain for RMB; the strongest card with Virgin Active
Virgin Active (product: Nosarka / Wiener)	The same, at 200 bays, 130 clubs	A product-team meeting, then an LOI	A signed PF pilot, Golfzon, RMB	Scale for RMB and Golfzon; the Brait equity story
RMB	Asset finance for 90% of landed capex, backed by the concessions	An indicative term sheet, then credit approval	PF (and VA) LOIs, Golfzon quote, bay model (DSCR 2.0+ at maturity), Santam cover	The firm Golfzon order; the bays get built
Icons Series (Tom Brookes, Chris Robertson)	A R10m hole-in-one on a signature par-3, fully underwritten, fan vote in the app	Yes in principle, then an agreement: Official Hole-in-One Partner, the hole, the fan mechanic, promotion rights	Santam cover, the app (live beta at /icons), 30 courses and 18,000 members	The broadcast moment, and the stage for Ernie and the global launch
Santam / Indwe (Crystal Bennett, Jason Veitch; Joe Szemerei, Brendon Pillay)	The SA book (R144m premium, R28.8m brokerage over 36 months); the global book on Golfzon; naming rights on the R10m	A date to sign the SA cover; a Specialist Solutions quote for R10m; a brand-side contact	The app (built end to end), Icons, Golfzon's global network, Ernie	The app opens to the public; the Icons prize is real; insured shots on every bay
Ernie Els	Founding partner of a global product: app, Golfzon and gym bays, launched at his Icons Cup	Signature at Fancourt	Everything above, delivered	The global announcement; the name that opens the US and Europe

BREAKING THE CHICKEN-AND-EGG

Each party wants to see someone else commit first:

- Golfzon wants a firm order.
- RMB wants signed concessions and a Golfzon quote.
- Planet Fitness and Virgin Active want zero capex, which means RMB.

Break it with **conditional commitments in the right order**:

1. **Golfzon (25 Sep): indicative chain pricing and a reference design, "subject to finance and concessions"**. That gives RMB and PF a real number.
2. **Planet Fitness (2 Oct): an LOI for phase 1 (10 clubs, 20 Signature bays, 2027), "subject to finance and the reference design"**. That gives RMB a signed counterparty and Virgin Active a precedent.

3. **RMB (October): an indicative term sheet** on the PF LOI plus the Golfzon quote. Virgin Active is the upside, not the condition.
4. **Close together (January-February 2027):** the firm Golfzon order, RMB credit approval and signed concessions in one closing stack. Phase-1 installs follow.

Santam and Icons run on a separate track from the bays and move faster:

- **The SA cover opens the app.**
- **The R10m quote makes the Icons prize real.**

Both must be in writing before the October announcement.

THE NEXT 12 WEEKS

WHEN	MOVE	OUTCOME WE NEED
Wed 23 - Thu 24 Sep	Prep Golfzon. Agree the one line on Ernie (see <i>One story</i>). Chase Icons for a yes in principle (sent 22 Sep).	Meeting pack ready
Fri 25 Sep	Golfzon meeting: Sean Pyun	Named Golfzon owner, pricing date, NDA, yes to discussing Get Lucky mode
Mon 28 Sep - Thu 1 Oct	Golfzon follow-up note (asks in writing, no Ernie). Santam Specialist Solutions proposal form, turned around in 48h. Coffee with Jessica Spira (RMB and Virgin Active warm route).	Golfzon asks on record; R10m in underwriting
Fri 2 Oct	Planet Fitness meeting: Mannee de Wet	Phase-1 LOI in principle; the flagship club; a date with Manny
By Tue 6 Oct	Santam: SA cover signing date and R10m quote (their two weeks)	Cover in writing
Mid-October	PF LOI signed. RMB indicative term sheet request. Icons agreement signed. October announcement: Official Hole-in-One Partner, and "Back an Icon" opens in the app. The app opens to the public once the SA cover is signed.	The public story starts
Late Oct - Nov	Virgin Active product team (Nosarka / Wiener) with PF in hand. Golfzon: software MoU and a demo bay for Fancourt. Icons build: rig, tracer, camera verification. Global announcement pack.	Everything staged for December
11-13 Dec	Icons Cup, The Links at Fancourt. The R10 Million Swing. Ernie signs as founding partner. Global announcement.	The close
Jan 2027	PGA Show, Orlando: Golfzon America and the US launch conversation. Closing stack: Golfzon order, RMB credit approval, concessions.	Firm deals
Mid-2027	First Virgin Golf and Planet Golf bays live, with Get Lucky mode	Proof

MEETING BRIEF: GOLFZON, FRIDAY 25 SEPTEMBER

Who: Sean Pyun, President and CEO of Golfzon America and Head of Global Business. He moved the Global Business Division to Chantilly, Virginia in March 2026, and he builds partnerships with operators rather than making one-off sales. Check the spelling in every calendar invite and email: **Sean Pyun**, not "Shaun Payn".

Objective: Leave as Golfzon's gym-chain partner in Southern Africa, with the software conversation open.

Open with: "We're bringing Golfzon into South Africa's two biggest gym chains, financed, operated and booked like padel. We want Golfzon as the technology partner, and we want to put a Golfzon prize product on every one of your bays worldwide."

What we bring:

- The programme:
 - Virgin Active: 200 bays in 130 clubs.
 - Planet Fitness: 72 bays in 42 clubs.
 - Phased 2027-29, about \$11M of hardware at list.
- The finance: RMB asset finance at 90%, with Get Lucky putting in 10% equity.
- The insured shot: live on real courses, Santam carrying the risk. The app is built end to end, with a sealed evidence chain for every claim.
- Content and a league engine: 30 partner courses to scan into the Golfzon library, and 600 golf days a year.
- Icons Cup South Africa at Fancourt, broadcast to 150+ countries, where Get Lucky owns a par-3 with a R10m prize.

The asks, in order:

1. **Hardware:** chain pricing on the three bay types, a reference design for a two-bay zone, and an SA service partner.
2. **Software:** agreement in principle to scope **Get Lucky mode** inside Golfzon, with signed shot events, member log-in and NASMO video.
3. **Data:** an NDA covering ace-rate history by hole and distance (for Santam's pricing), and bay counts by country.
4. **Icons:** a Golfzon demo bay in the Fancourt fan zone playing the Get Lucky hole. That puts Golfzon on the broadcast in December.
5. **Next step:** a named owner at Golfzon, a pricing date, and Chantilly (Q4) or the PGA Show (January).

Do not:

- Put Ernie in writing. If he comes up, say: "We're finalising a major-winning founding partner, and you'll see him at Fancourt."
- Call the gym bays an order. Say "the programme we're rolling out".
- Send the Virgin Active pitch site.
- Let a distributor own the relationship.

MEETING BRIEF: PLANET FITNESS, FRIDAY 2 OCTOBER

Who: Mannee de Wet, co-founder and Managing Director, who runs the clubs. Manny Rivera (founder and Group CEO) makes the final call. Two founders decide. There is no group brand doctrine and no offshore sign-off.

Objective: An LOI in principle for phase 1, the Sandton flagship chosen, and a date with Manny.

Open with: "Two South African companies built from scratch. We want Planet Fitness to have golf first, before Virgin Active, in Sandton."

What we bring:

- The model:
 - 72 bays in 42 clubs, R70.8m landed capex.
 - **Zero capex for Planet Fitness.**
 - Planet Fitness takes 20% of every rand, **about R13.7m a year at maturity** (R9.7m quiet, R16.9m busy).
- The Golfzon outcome from 25 September: pricing and a reference design on the way.
- RMB finance and Get Lucky operating the bays.
- The precedents: padel (their own Africa Padel deal) and Chiswick (membership up 15%, revenue up 23%).
- **The Icons story:** a R10m shot at Fancourt, Ernie captaining Team South Africa, and the app. It is proudly South African, like Planet Fitness.

The asks:

1. Phase 1 in 2027: 10 clubs, two Signature bays each, **Sandton first**. An LOI subject to finance and the reference design.
2. Member numbers and footfall for the flagship clubs. RMB needs these.
3. Golf zones in the drawings of new clubs to 2030.
4. **Something that starts now:** a "Back an Icon" member promotion in October–November. Planet Fitness members get a free swing in the app, so Planet Fitness is part of the Fancourt story before the bays arrive.
5. A date with Manny, and Icons hospitality at Fancourt for both founders.

Why it matters beyond Planet Fitness: a signed Planet Fitness pilot is the strongest card with Virgin Active, and the first signed counterparty for RMB.

BRIEF: RMB

What RMB needs to see:

- Signed or LOI concessions (Planet Fitness first).
- A Golfzon quote.
- The bay model:
 - Virgin Active: DSCR 2.0 by 2029 and 2.58 by 2031.
 - Planet Fitness: DSCR 2.34 by 2031.
- 10% equity from Get Lucky.
- The Santam-insured shot as an extra revenue line.

The terms: prime + 1.5%, 12 months interest-only, then 60 months amortising.

Warm route: Jessica Spira. She spent 21 years at RMB and was MD of Virgin Active South Africa. She knows both sides of the table.

How to position Ernie: as upside, not as a credit support. A lender makes its decision on the concessions and the cash flows. **Only describe him as signed once he is.** Anything in a credit application has to be accurate on the day it is submitted.

■ BRIEF: ICONS AND SANTAM

Icons (status 22 Sep: full proposal sent, waiting for a yes in principle).

- The ask:
 - Official Hole-in-One Partner of Icons Cup South Africa;
 - a signature par-3 for the R10 Million Swing;
 - the fan mechanic in the app;
 - the right to promote the series.
- The split: R4m to the Icon, R3m to their charity (EIs for Autism runs two SA centres), R3m to three fans who backed them.
- We need the runway for the rig, the tracer and Santam's cover in writing before December.

Santam and Indwe (status 22 Sep: three asks sent).

1. A date to sign the SA foundation cover, which opens the app.
2. The Specialist Solutions contact for the R10m quote.
3. The brand-side contact to value the rights package separately from the premium.

The story for Santam: the SA book is the foundation, the Icons broadcast is the launch, and **Golfzon is the global rail**, so Santam's cover can run on Golfzon bays worldwide.

CRITICAL PATH

Icons was told in August that the R10m prize was "secured... fully underwritten". Santam received the quote request on 22 September. Until Santam quotes, that promise rests on one market. Ask Indwe to take a **parallel quote from the contingency market** as a back-up. R10m is about \$540K. SCA Promotions and Lloyd's contingency syndicates write one-off prize indemnity at that size routinely. That way the Icons prize holds whatever Santam decides, and Santam keeps first right to be named on it.

■ PLAYING THEM OFF EACH OTHER

This is deliberate. Every party moves because another is moving. It works best when the leverage comes from **real alternatives and real deadlines**, because those hold up when someone checks.

Real alternatives to use in each room:

ROOM	THE ALTERNATIVE THAT CREATES PRESSURE
Golfzon	TrackMan or Uneekor for the gym bays. Say "We're choosing the platform for 272 bays."
Planet Fitness	Virgin Active, which is also in discussion. Say "We'd rather Planet Fitness had it in Sandton first."
Virgin Active	Planet Fitness going first. A competitor's club gets golf before them.
RMB	A second bank, or Golfzon lease finance, with the same pack.
Santam	The contingency market (SCA Promotions, Lloyd's) for the R10m, and naming rights on the broadcast if they take it.
Icons	The fixed date. The rig, the tracer and the cover need runway, and December doesn't move.
Ernie	Momentum. Golfzon, the gyms, Santam and Icons are all in motion, and he's the name on top.

Where framing is fine, and where it has to be exact:

- **Golfzon, Planet Fitness and Virgin Active are sales conversations.** "The programme", "in talks" and "being finalised" are fair framing while each of them is true.
- **RMB, Santam and Icons are different, because they sign on what you tell them.**
 - A credit application to RMB has to state the concessions and partners as they are on the day.
 - A proposal form to Santam has to disclose material facts accurately. A misstatement there can void the cover, and the cover is the prize.
 - The Icons agreement will warrant that the R10m is underwritten, so it must be bound before signing.

Overstating to these three isn't leverage, it's exposure.

- **Keep one version of the story** (see *One story* below). All of them talk to each other in the end, and the plan only works if everything checks out at Fancourt.

ONE STORY: WHAT WE SAY, TO WHOM

Every party here talks to the others:

- Jessica Spira knows RMB and Virgin Active.
- Santam will see the Icons broadcast.
- Golfzon will ask Virgin Active who its partner is.

A claim that runs ahead of the facts in one room gets tested in another. So each claim is stated as what is true today, the same way everywhere.

CLAIM	TRUE TODAY	HOW TO SAY IT
Ernie Els	Not signed. Target: signing at Icons, 11-13 Dec	Verbal: "our founding partner, being finalised". Writing to Golfzon and RMB: leave him out, or say "a major-winning founding partner, to be announced". Align the Indwe pre-read wording ("officially backing") before it travels further.
272 bays	A programme being proposed. Virgin Active marketing said "not the focus right now", and the product route is open. Planet Fitness meets on 2 Oct	"The programme we're rolling out with Virgin Active and Planet Fitness." Never "the order" until it's signed.
RMB finance	Structure modelled with RMB, not yet credit-approved	"Asset finance structured with RMB."
R10m cover	Quote requested 22 Sep; not yet bound	To Icons: "in underwriting with Santam Specialist Solutions". Get the quote before the Icons agreement is signed.
Golfzon partnership	First meeting 25 Sep	After 25 Sep: "in partnership talks with Golfzon". Nothing more until a document exists.
The app	Built end to end, not yet public; opens when the SA cover is signed	"Built, and opening with the Santam cover."

IF A PIECE FALLS AWAY

IF...	THEN...
Virgin Active stays "not now"	Planet Fitness goes first as the reference, and Virgin Active follows through the product team and Elian Wiener. RMB and Golfzon run on PF alone at 72 bays.
Golfzon won't open the software	The bays still run Golfzon for bay hire. Get Lucky's own lightweight app runs on TrackMan or Uneekor bays instead (see the research report).
RMB is slow	Ask Golfzon about vendor or lease finance, and approach a second bank with the same pack.
Santam won't quote R10m	The parallel contingency-market quote carries the Icons prize. Santam stays on the SA book.
Icons says no	Keep the Santam SA cover and the app launch. Launch at the Golf Show or with a partner course event instead, and still announce with Golfzon.
Ernie doesn't sign at Icons	The product, Golfzon and the gym bays stand without him. Keep the door open, and don't announce a founding partner.

THE CLOSE AT FANCOURT

What should be true on 11 December:

- **Santam** named on the R10m, and the SA cover live.
- **The app** public since October, with thousands of fans who backed an Icon.

- **Golfzon** on site with a demo bay playing the Get Lucky hole, and a software MoU signed or close.
- **Planet Fitness** LOI signed and **RMB** term sheet in hand. Virgin Active in product discussions.
- **Ernie Els** signs as founding partner.

Then the announcement: **Get Lucky goes global.** One swing, insured, on any par-3, on real courses, in the app and inside Golfzon. The first Virgin Golf and Planet Golf bays follow in 2027.

Prepare in November: the press release, broadcast graphics, the Golfzon joint statement (subject to their sign-off), the signing moment with Ernie and the charity cheque.
